

Corporate Venture Building in times of AI breakthroughs

Körber Digital is the number 1 corporate venture builder in Germany revolutionizing the manufacturing and supply chain industry with Artificial Intelligence. Join this event to learn first-hand how Körber Digital has developed an own methodology to build corporate ventures and how it is improving its innovation & venturing activities in times of recent (Gen)AI developments.

Why you should join the live stream:

- Method learning: Get to know the tools and methodologies Körber Digital uses to systematically move from idea to multi-million revenue venture that revolutionizes the manufacturing landscape.
- Entrepreneurship vs. Intrapreneurship: Hear from the team behind Körber Digital's venture building team how an entrepreneurial career can also be realized within a large German corporate.
- Trend exchange: Learn how Körber Digital deals with the rapid disruptions coming from Artificial Intelligence and uses them towards its own advantage.
